

One platform across every layer of your restaurant — *run by one mind. A to Z.*

Abbas Zoeb — an **ex-Google engineer** who owns his own award-winning restaurant, Wok & Karahi (Spring, TX), so he's lived both sides — with a full team behind him. Our own place: **4.6★ across 872 Google reviews**, and a Top 10 halal restaurant of 2024.

You're working harder than ever — so why is someone else keeping the profit? The apps take **15–30% of every order** and own the customer you earned, calls go to voicemail in the rush, a dozen tools don't talk to each other, and you can't see your real numbers. You're one person against a system built for giants. **We even the odds.**

ONE PLATFORM, EVERY LAYER — FROM STOPPING THE BLEED TO STAYING AHEAD

- 1 Stop the bleed.** Cut the apps' 15–30% commissions, answer every call 24/7, end the tablet chaos, and claw back the money the apps quietly owe you.
- 2 Win back & grow.** Turn app guests into your own repeat customers, climb your reviews the smart way, get found on Google *and* AI search, and open a high-margin catering channel.
- 3 See clearly & stay ahead.** One real view of your numbers, an actual strategy like the chains run, and a team that keeps you ahead as everything keeps changing — from 100+ tools, we set up only the few that fit you.

We make you money *before* we take a dollar.

We come to you, find every leak, and do all the work. **You only pay once you're saving — we don't get paid until you keep more. Guaranteed.** No commissions from any vendor — our only side is yours.

FOUNDING 5 — 5 RESTAURANTS ONLY

- › **Money back first** — if we don't deliver, you pay nothing
- › **Founding pricing locked for life** — it never goes up

WHAT YOU ALSO GET

- › A **direct line to the founder**, not a support queue
- › First access to everything we build

Scan it. See your money leaks in *2 minutes* — free.
